STUDENT TESTIMONIALS

YULIA (RUSSIA)

"I have been studying at MLI for 6 months. When I became a student here I couldn't speak English at all, so I started with a beginning level. By the third month in school I began to understand but was still too shy to speak.
Teachers at MLI helped me to overcome my language barrier and I am so grateful for that. I now can express myself in English and it feels amazing. I also love the managers and staff members at the school. Always supportive and friendly."

"I came to Los Angeles to learn English and I am so happy I found Mentor. The school is amazing and the teachers are great. I was only here for a month, but I learned more than I ever thought I would. Thank you!!"

TEST PREPARATION

BUSINESS PLUS TOEIC® – 432 HOURS (TWO TERMS)

This program serves as an introduction to the terms commonly used throughout the business world through an exploration of international business practices and concepts. Additionally, it prepares students for success on the TOEIC® – Listening and Reading Exam by introducing essential vocabulary and exploring strategies for achieving a high score on the test.

In TOEIC®, students will work to expand their vocabulary and improve their reading, listening, and grammar skills, with the ultimate goal of achieving a high score on the test. The Test Of English for International Communication (TOEIC®) is a standardized test used by various companies and organizations throughout the world as an effective measure of a job candidate's ability to understand written and spoken English. In TOEIC® class, students will acquire a variety of vocabulary terms essential to everyday communication. They will also examine the 7 parts of the TOEIC®, and develop strategies for approaching each part. Listening and reading exercises (modeled directly after each of the 7 parts of the test) will be taken daily, and 3 complete practice tests will be taken per term.

TOEFL®

TOEFL® – 648 HOURS (THREE TERMS)

The Test Of English as a Foreign Language (TOEFL®) is a standardized test created and administered by Educational Testing Service in order to assess a non-native speaker's ability to effectively communicate in English in an academic setting. Most American universities require a TOEFL® score for admission. Many government agencies, private companies, licensing bodies, and scholarship boards also require a score.

MLI's TOEFL® program is an intensive look at the skills and strategies necessary to achieve a successful score on the four sections of the Internet-Based Test (iBT). In addition to classroom instruction, MLI regularly makes use of the computer lab at each campus in order to provide students with a more authentic iBT TOEFL® experience. Computer practice is given in each subject area, but there is special emphasis on writing and speaking skills.

The class is divided into the following sections:

In the Reading section, students are introduced to the ten question types presented in the iBT reading section and learn strategies to answer the questions more effectively.

The Listening section introduces students to the six question types presented in the iBT listening section. Students will learn note-taking strategies to effectively capture main ideas and details.

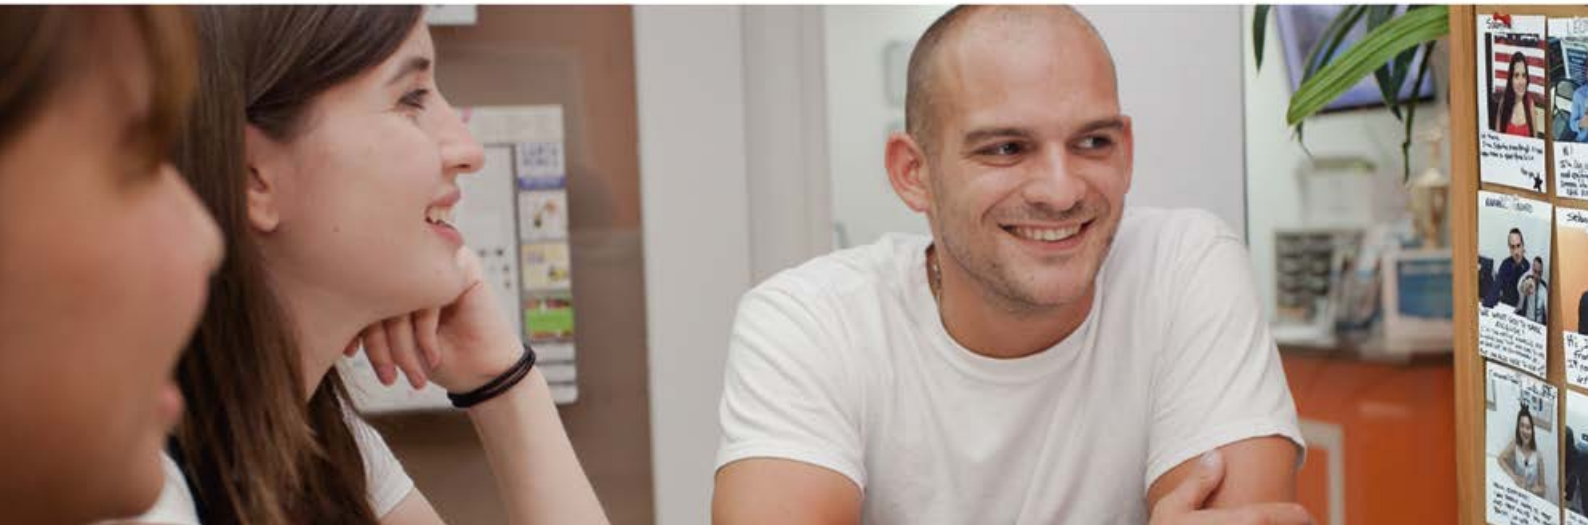

In the Independent Speaking section, strategies are presented to improve speaking, organization, and pronunciation. Students speak on topics that simulate actual TOEFL® prompts, and are given feedback by the instructor.

As its name suggests, the Integrated Speaking section combines speaking with several other skill groups to simulate an actual academic context. This class gives students practice at responding orally to various written and recorded material. Strategies are presented to improve speaking, reading, listening, note-taking, and pronunciation. Students speak on topics that simulate actual TOEFL® prompts, and are given feedback by the instructor.

In Independent Writing, strategies are presented to help students write standard American English essays. Students write on topics that simulate actual TOEFL® prompts, and are given feedback by the instructor.

Like Integrated Speaking, the Integrated Writing section gives students practice combining several skills together. Students are given written and recorded materials and are asked to respond in writing. Strategies are presented to improve reading, listening, note-taking, and writing. Students write on topics that simulate actual TOEFL® prompts, and are given feedback by the instructor.

In addition to regular course work, three full-length practice tests will be taken per term.

IELTS™

18 HOURS/WK PROGRAM

Prerequisite: Eligibility for High Intermediate track 1 or above, either through a grade report, or placement test score.

The International English Language Testing System (IELTS) measures the language proficiency of people who want to study or work where English is used as a language of communication. It uses a nine-band scale to clearly identify levels of proficiency, from non-user (band score 1) through to expert (band score 9). Students seeking entrance into a university or college will need a high score on the IELTS™.

MLI's IELTS™ program consists of 4 parts: Listening, Speaking, Reading, and Writing. The program is designed to specifically help non-native speakers of English improve their verbal, listening, reading, and writing scores on the IELTS™ test. Students will learn essential skills and strategies for high achievement on each portion of the IELTS™ test.

LISTENING

The focus of the listening section is to learn the strategies needed to improve their ability to answer the question types presented in the listening section and learn note-taking strategies to effectively capture the main ideas and details as well as develop overall comprehension skills.

SPEAKING

Speaking practice involves reviewing and analyzing the speaking section of the IELTS™ test. Students work on drawing logical conclusions to situations, and analyze how different phrasing expresses different ideas.

READING

Passages and questions from the IELTS™ will be explained, analyzed and reviewed in both the group and individualized portions of the class. Timed readings are given to help students increase their reading pace, and skimming and scanning skills.

WRITING

Strategies are presented to help students write an analytical, data-based essay and an opinion-based standard essay. Students write on topics that simulate the actual IELTS™ questions, and are given feedback from the instructor.

In addition to regular course work, three full-length practice tests will be taken per term.
